TECHNICAL

Code	Description	Remarks
12	Incorrect (code) value	Value of an element in a message is outside the predefined domain or not part of the applicable code list.
13	Missing	A mandatory/required element is missing in the received data, e.g. a required element.
14	Value not supported in this position (code value constraint)	Notification that a recipient does not support use of the specific value of an identified element in the position where it is used. This type of error refers to the use of an improper code value for a specific element.
15	Not supported in this position	An element is not allowed to have a value due to the following two reasons: - The element is not allowed to be present according to the message structure - The element is not allowed to be present according to some additional condition.
19	Invalid decimal notation	The decimal notation is not according to the decimal formatting standards.
26	Duplicate detected	The same message identification is received again. Duplication is detected by reception of message identification that has already been received.
35	Too many repetitions	Too many occurrences of an entity.
37	Invalid type characters	Violation of the data item format.
38	Missing digit in front of decimal sign	Notification that a decimal sign is not preceded by one or more digits.
39	Element too long (length constraint)	The length of the element received exceeded the maximum length specified.
40	Element too short (length constraint)	The length of an element received is shorter than the minimum length specified.
90	Unknown Reference Number	The Reference Number of the received message is not known, whereas it is expected to be known.
91	Duplicate Reference Number	The Reference Number of the received message is already known and is therefore not unique according to the specified rules.
92	Message out of sequence	The message can not be processed, because the receiver is not in a proper state.
93	Invalid Reference Number	The structure of the Reference Number do not conform with the respective specifications for that Reference Number.
