LIVE ANIMALS, PETS, ANIMAL AND PLANT PRODUCTS

Special licenses and permits are required for pets, live animals, animal and plant products and plants.

PETS

When travelling with pets, both within and outside Macedonia, the owner, i.e. person responsible must have appropriate documentation for identification:

- Veterinary – health certificate issued by an authorized vet from the country of departure
- Passport issued by an authorized vet from the country of departure, which is mandatory for all dogs, cats and ferrets, or
- Statement given by the owner or person responsible, mandatory for all birds, provided they come from a country member of the World Organisation of Animal Health (OIE).

Customs shall allow import of pets in the Republic of Macedonia that are not intended for trade, no matter their number, provided the Veterinary Inspectorate, following previous examination and health check, gives consent for import, i.e. issues a Veterinary Entry Document – VED.

ANIMAL PRODUCTS

Passengers are entitled to bring in products of animal origin (white and yellow cheese, delicatessen) in total quantity of 1 kg.

Products of animal origin, the total amount of which exceeds 1 kg, cannot be brought in Macedonia without a certificate confirming that they have been inspected by the Veterinary and Sanitary Inspectorate.

PLANTS, FLOWERS, FRUIT AND VEGETABLES

If you bring plants, flowers, fruit and vegetables into Macedonia, you will need an authorisation issued by the Ministry of Agriculture, Forestry and Water Economy - Phytosanitary Agency confirming that these products are healthy and free from diseases.

In addition, these products must be inspected by phytosanitary inspection services.

MEDICINES

1. The import of medicines is subject to special license issued by the Bureau for Drugs (Ministry of Health of the Republic of Macedonia). This import prohibition is not applicable if you bring in medicines intended for your own use.
2. If the medicines are intended for personal use, you need to have:
 - Certificate issued by your health institution identifying the medicine and the patient, type of health condition, and
 - A signature of your general practitioner which is proof that the medicines you are carrying with you are for your own use.
3. Medicines containing narcotics and psychotropic substances are subject to a special license issued by the Bureau for Drugs (Ministry of Health of the Republic of Macedonia).
4. Failure to observe the regulations on import of medicines, medical aids and psychotropic substances is punishable.

WEAPONS AND AMMUNITION

1. No fire arms or other weapons and ammunition may enter or cross the border of Macedonia. These include:

 - Harpoons for underwater fishing.
4. Failure to observe the Law is punishable.

GOODS THAT VIOLATE INTELLECTUAL PROPERTY RIGHTS

Import, export, transit and storage of counterfeit products and pirated goods is prohibited by law.

Counterfeits and pirated goods are hazardous for the health and safety of people and they contribute to lower budget revenues and increase of shadow economy.

They are recognizable by the low price, poor quality, bad look of the package, technical errors in the text of the labels and markings.

Counterfeits may include a sign, logo, letters, numbers, pictures, labels, user manuals or warranty document even if they are imported or exported separately from or together with the goods.

Pirated goods are goods which are or embody copies made without the consent of the holder of the copyright or the related rights.

Customs shall seize counterfeits and pirated goods, and following

confirmation of their counterfeit nature, they will be destroyed.

Exception from the above-mentioned are goods which are part of the personal luggage of the passenger, objects of non-commercial nature with low value which are occasionally received from abroad, and which are relieved from import duties.

Perpetrators shall be sanctioned.

For the achievements in the fight against counterfeiting and piracy, in competition with 174 Customs Administrations, members of the WCO, in 2009 the Customs Administration of the Republic of Macedonia received the prestigious award of the World Customs Organisation - **Yolanda Benitez WCO Trophy 2009 Combating Counterfeiting and Piracy.**

ENDANGERED ANIMALS AND PLANTS

No endangered animal and plant species or products derived from them may be brought to or taken out from Macedonia. In line with CITES (the Convention on International Trade in Endangered Species of Wild Fauna and Flora), the import and export of endangered animal and plant species and their products is prohibited by Law.

Trade in endangered and protected wild plants, fungi and animals and product derived from them is subject to appropriate document - license issued by the Ministry of Environment and Physical Planning. This license must be obtained in advance.

Illegally imported animals and plants are often infected with dangerous diseases and parasites.

Examples of protected animal and plant species and products derived from them:

- Brown bear, grey hawk, Hipparchia semele butterfly (critically endangered), wolves, snakes, lizards and tropical animals,

- corals and shells,
- exotic plants such as orchids and cactuses etc,
- all products and articles derived from endangered plant and animal species, such as:
 - > musical instruments
 - > coral or ivory artifacts
 - > clothing, footwear and accessories etc.

Customs and police officers or inspectors will confiscate any illegal shipment. Besides paying fines, perpetrators shall cover all other expenses for the care or storage of such shipments.

Be a careful buyer and protect nature and species!
